Circular No. 019/ 2025-'26

Submission Guidelines for Diwali Holiday Assignments and Science/Social Fair Projects

**Dear Students and Parents,
Jai Swaminarayan!**

We hope your ward is enjoying the **Diwali vacation** with happiness and positivity. As you are aware, to help our students stay **connected with their syllabus** and utilize their vacation time productively, we have assigned **holiday assignments** in the form of worksheets and project work. This effort is aimed at encouraging the **constructive use of mobile devices and the internet**, and to minimize unproductive engagement with gaming or social media.

In this context, you are kindly requested to take note of the following points and ensure your ward's adherence to them regarding **completion and submission** of assignments:

- **All assignments must be completed on or before 18th October** to allow students ample time to enjoy the festivities and avoid any last-minute rush.
- For any **doubts or queries**, your ward may contact their respective **subject teachers**. Contact numbers are provided at the end of each assignment.
- If there is **no response from teachers via call or WhatsApp**, please contact the school administration at **7093802733** for alternate numbers.
- Assignments should be uploaded (**not mandatory**) on the school app **to receive timely feedback and suggestions, if needed**; however, please note that bringing a **physical copy on the reporting day** for final corrections and marks entry **is mandatory**.
- Students may also **bring their assignments directly to school** and submit them to their subject teachers on the **reporting day**.
- **Please note:** Assignments submitted late will incur a **deduction of 5 marks per subject**.

Guidelines for Science/Social Fair Project:

- Science/Social fair projects can be brought to school without dismantling, if possible.
- If it is **not possible to bring the project intact**, kindly **pack the dismantled parts securely** and ensure the following details are clearly **written on the package: GR number, class, section, and name of the ward**.
- Prepare and bring **charts related to your project, as needed**, to **explain your work during the Science Fair** according to the requirements of the project.
- Projects & charts must be **submitted** to the respective teachers on **the reporting day**.
- Project works will be checked by teachers with proper reassembly on the following day.
- All projects will be **displayed for the Science/Social Fair** on the date announced after the reporting day.
- The **top 2 projects from each class will be selected** during the fair for special recognition.

We sincerely request your **cooperation in ensuring timely and proper submission** of assignments. This will foster your ward's **discipline, responsibility, and effective time management**.

Warm Regards,
Principal
